 **GCS**  
**ELECTRICAL**  
Yes, We do IT

A photograph of a man with a beard and short brown hair, smiling warmly while holding a young child. They are positioned in front of a row of solar panels mounted on a roof. The scene is bathed in the warm, golden light of late afternoon or early morning. The image is partially covered by a semi-transparent white rectangular area on the right side, which contains text.

## **RECHARGE PUTS THE POWER IN YOUR HANDS**

### **How?**

With a customised rental solution designed to suit your needs and your budget.

### **WHY RECHARGE?**

Because our high-end solar solutions are installed by trusted installers with proven credentials and expertise - we hand select the people we work with to ensure your peace of mind. No strangers, no cowboys, just accredited installers ensuring your solar system is installed perfectly.

# RECHARGE SUPERCHARGES YOUR POWER WITH THESE ELECTRIC BENEFITS:

## A TRUSTED AND ACCREDITED INSTALLER

Your solar solution comes with someone you can trust. Your guy will handle your installation professionally and provide you with regular service and support.

## UPGRADE AT ANY TIME

You can add extra solar panels and/or batteries to your system whenever you need them throughout your rental period. You can also extend your rental period with extra options if you want to supercharge your setup.

## A TRUSTED SERVICE PROVIDER

ReCharge, financed and supported by Investec Bank, only uses accredited and certified installers and provides you with access to an exceptional technical support desk. Our support team continuously monitors your system so you always have peace of mind.

## BUDGET-FRIENDLY SERVICE AND SOLUTIONS

Instead of paying hundreds of thousands of Rands for an outright system purchase, you pay a fixed monthly rental. You can even save on your monthly electricity bills.

# PACKAGES

## Choose from our tailored packages:

There are multiple ReCharge packages which include SunSynk™ inverters and batteries and JA Solar or Canadian Solar panels. These packages are flexible, allowing you to add solar panels and batteries as your expectations and requirements change. Additional 5kWh batteries and solar panels are priced from R650 and R150 each per month respectively.

If SSEG is required, ReCharge can add R175 (Incl.VAT) per month to the your rental or alternatively you can pay this upfront.

\* All above recommended usage is available during 4 hours of continuous power interruptions with the batteries fully charged.

## IT'S YOUR CHOICE

Sign a five-year rental agreement with the following options at the end:

- 30% rental reduction when signing a new five-year agreement, or;
- New batteries when signing a new five-year agreement, or;
- Continue renting on a month-to-month basis, or;
- De-installation of the system if you choose not to renew

## HOW IT WORKS

- You select your package in consultation with your trusted installer
- You scan your installer's QR code which directs you to the ReCharge rental application form
- Supply the necessary information, get approved, sign up!
- Pay your upfront admin fee
- Set a date for your installation
